

# DR. KIMI WILSON

## EQUATION 2 SUCCESS

---

KiMi Wilson is the Chief Executive Officer of Equation 2 Success, an educational consulting firm dedicated to revolutionizing education in underserved communities through partnerships with school districts, schools, businesses and nonprofit organizations throughout California and nationwide. Dr. Wilson also serves as an Assistant Professor of Curriculum and Instruction in the Charter College of Education at Cal State LA. KiMi's career in K-20 education spans twenty years. He has served in numerous roles, including teacher, curriculum specialist, and education director of a National Science Foundation (NSF) nanotechnology engineering research center at UCLA, to increase minoritized populations representation in science, technology, engineering, and mathematics (STEM). Dr. Wilson has also served as the principal investigator for the Future Male Minority Teachers of California to increase male teachers of color throughout the California university system. Dr. Wilson also serves as co-principal investigator for a Howard Hughes Medical Institute grant that seeks to advance equitable outcomes in the sciences. Dr. Wilson's ethnographic research focuses on how African American students develop STEM identities in K-12 schooling and has a forthcoming book titled, *The Lived and Everyday Schooling Experiences of Black Boys in STEM* to be released in 2021. In every endeavor, KiMi seeks to leverage his vast array of theory + praxis knowledge to create, design, and implement experiences that transform learning for the next generation of fantastic minds. A native of Los Angeles, Dr. Wilson is the product of Loyola Marymount University, Pepperdine University and Cal State LA. He is an avid music lover, traveler, and aspiring chef. KiMi serves on the Board of Directors for Minds Matter LA. He is a member of Phi Kappa Phi honor society. His family is the greatest joy of his life.
